

A typical English estate lake located in Brittany? It sounds strange but it's true. Just 30 minutes south of Rennes and an easy 2½ hour drive from the ferry port of Caen lies Oakwood Fisheries.

Deep in the Breton countryside Oakwood is a stunning Five acre, tree lined lake created in 1862 for the local chateau and then left to the elements for generations.

On-going Fishery management has seen the 5 acre lake rejuvenated back to the sparkling jewel it is and it resides in a securely fenced private estate of 19 acre's.

With its 7 purpose built wood chipped swims surrounded by mature woodland and masses of colourful rhododendrons Oakwood fisheries is picture perfect.

The Stock

There's around 130 big carp present at Oakwood Fisheries the average size being mid – high twenties.

There is an excellent head of thirties and 6 known forties and the lake record stands at 60lb 4oz's

Oakwood contains some of the most amazing looking fish you will have seen from perfect linear's to big plated mirrors and hard fighting golden commons.

The most recent stocking occurred in November 2010 when a further 30 carp were stocked, all the fish were between 25 – 41lb and a mixture of both mirror and common carp.

The Facilities

There is a newly constructed shower block complete with a luxury hydrostatic shower.

There are English power points for charging bait boats, large chest freezers to store bait as well as a micro wave and tea and coffee making facilities.

We sell bait from Carp Company and Cheryl's home cooked meal package is an essential part of your stay offering traditional favorites and a breakfast baguette bought to your swim.
